EXPERIENCE

User Interface Designer, Museum of Science, Boston: October 2017 – present

Produces storyboards, wireframes, software requirements, and prototypes of exhibit interfaces, in collaboration with software developers, graphic/3D designers, content developers, and usability researchers

Freelance Designer/Developer/Educator, 2015 – present

Plans and implements creative technology projects for clients in the realms of arts and education

Web & Interactive Developer, Museum of Science, Boston: August 2013 – October 2017

Designed and coded websites using custom-built responsive Drupal themes, coordinated promotion requests with several internal stakeholders, produced landing pages/microsites for special events, promotions, and contests — often in sync with print materials

Assistant Curator of the Wiesner Gallery, MIT Office of the Arts: 2009 – 2012

Oversaw gallery operation, organized and promoted show openings, recruited artists
